According to national and international polls, nearly 30 percent of the population is skeptical of the 'official' version of the events of 9/11. The 9/11 Commission Report is viewed as a cover-up by a significant percentage of citizens and the 9/11 Truth movement seeks to find answers to these questions about the real cause of those atrocities. We have gathered three highly knowledgeable experts on 9/11 Truth including James Fetzer Ph.D. (founder of Scholars for 9/11 Truth), Wayne Madsen (editor of WayneMadsenReport.com) and Kevin Barrett (co-founder of the Muslim Jewish Christian Alliance for 9/11 Truth). Scholars for 9/11 Truth supports the efforts of Barbara Ellis, Joel Hirschhorn, Warren Pease, and Bill Ball in a draft bill to Congress concerning the necessity for a reinvestigation of 9/11 in order to reform any building codes that could have been undermined. An article about this may be found [here](#).
